

C. H. Orme is Candidate for Rupert Mayor

C. H. Orme of Prince Rupert, one of the very early residents of the northern coast city, and incidentally, one of the most successful, has consented to be a candidate for mayor of Prince Rupert at the elections in January. Mr. Orme has carried on a very successful drug business since the early days. He has been active in public work and has held numerous positions. Last year for the first time he stood for the city council and he headed the poll with a lead of 200 over the next high man. He has done good work on the council board. He will do good work in the mayor's chair. Mr. Orme is making no little sacrifice when he consents to devote so much time to the work of the city, but the people of that city were so insistent on him entering the contest, that he has offered his services. Mr. Orme is very well known throughout the interior. He has been here on several occasions and he has a good many friends who will be glad to know that he is in the contest. He will be elected, and probably by the largest majority that a mayor was ever given in Prince Rupert.

IS ELECTION DELAYED?

Premier McKenzie King has apparently not found the west to his liking. After making a tour of the four western provinces and meeting many of his followers, he is reported to have tipped off some one in Calgary that there would be no election until 1930. The Premier had about made up his mind to hold on for another year or so when he addressed the Vancouver people and told them that if they want favorable consideration and prompt action at Ottawa they had better send more members to the Liberal caucus and not so many Liberals to the lobby.

THE TIE CONTRACTS LET

Only half the number this year—
Crescoted ties being used now

The tie contracts have been awarded and as was anticipated, only about a half of the usual number are required. For years the railway has been buying many more than required and the surplus were given the crescote treatment and those crescoted ties are now being sent out for use. As they will last many years longer than the untreated tie, the day for the big tie-camp and the drifting tie makers is about done. Most of the ties in future will be cut by settler contractors and these contracts will run from one to three or four thousand ties each. It is only a heavy branch line building program that will increase the number of ties required, and it is doubtful if many ties will be taken from along the C. N. R. for northern branch or main lines.

TO KEEP ROADS OPEN

The Herald learns that it is the intention of the public works department to keep open for the winter the main lines of the highway. This is in direct line with the policy of the minister of public works, Hon. N. A. McLeod. Besides giving the public the better service it will also assist indirectly to offset the unemployment situation which develops every winter.

The Highway Commission is still a year

G. C. Mortimer Succeeds Hyde Indian Agent

Indian Agent Ed. Hyde, for nine years in charge of the Babine Agency with headquarters at Hazelton, will finish his term of office on the 30th day of November. He was first notified of his dismissal early in September and it was understood that a new man was to be appointed a once, but a lot of dissatisfaction was expressed throughout this district and the powers that be decided to wait awhile before sending the new man in, and also making the bluff that returned men in the district were being given a chance to make application. It appears, however, that the new man was appointed early in September alright.

The new Indian Agent is, Gordon Cummings Mortimer of Cranbrook and lately of Vernon. He is a late member of the provincial police force and since his return from overseas he has been located at numerous places on Vancouver Island and the lower mainland and in the far north. He will be accompanied to Hazelton by C. C. Perry of Victoria, assistant Commissioner of Indian Affairs at Victoria, and the Victoria official will officially install the new agent.

Just what the returned men of this district will think of the appointment is hard to say. A number of the boys put in their application when it was learned that the position was vacant and some of the local boys are well qualified to fill the position, but it is doubtful if any of them were aware that the appointment had been made before they were asked to make application.

ONE TEN DOLLAR WALK

Bob Heddie's team lead way from Hazelton to New Hazelton and back

Our old friend Bob Heddie blew into the district some weeks ago and has been hanging out at Smithers for the last couple of weeks, but expects to come back to his old stamping ground shortly. It is a long time since we saw Bob. He was a blacksmith here once, in fact was blacksmithing in old Hazelton when the editor first arrived there. He drove the team we hired to bring us from the old town to what, at that time, was destined to be New Hazelton. On the way over Bob got inquisitive, like all Ontario fellows, and started asking questions as to who we were, where we came from and what relation we were to this one and that one. He discovered we were native of the same village, behind the Hamilton mountain that he came from. Just for old times sake Bob had us walk all the hills and when we finally got back to Hazelton, after one of the hardest afternoons we ever put in Bob charged us ten dollars for taking his team for a walk, and for the privilege of walking behind his team. Since then we do not tell anyone what village in Ontario we came from or ever lived in.

NEW BEALY LAKE SCHOOL

School Inspector Fraser proposes to recommend this year to the department of education, that a school be opened at an early date as possible to serve the people living between Beal and Beal's Crossing. The school will be built on the north shore of Beal's lake and will probably be known as Beal's Lake school.

PRINCE RUPERT NEWS LETTER

The good citizens and citizenesses who dwell in that part of the city known as Rupert East are developing signs of an alert civic spirit. With the election still many weeks away, they are trying to work up premature excitement. They hold regular meetings in Seal Cove school, and tell one another that those who sit in the seats of the mighty, in City Hall, are coldly neglecting them. While there is no threat, either covert or blantly, of succession, they are in a very critical mood, and await election day as patiently as they may.

Anyone who takes liberties with the Pacific Ocean runs the risk of coming out the second best. Albert Voight, German and daredevil, started from Juneau to New York last June, in a walrus skin canoe. Old Man Pacific did not exactly take his life, but came within an ace of doing so. Voight, on his way, paused at Prince Rupert, to rest a bit, and call on the newspapermen. A sun-burnt, stalwart, young fellow, whose tongue would trip when the English language was attempted, he had high hopes of really reaching New York. But it was not to be. Last week off Eureka, California, his little canoe was swamped. Voight utterly exhausted, managed to swim to the beach and is now under a physician's care.

There are more applicants than jobs in Prince Rupert just now. Strangers keep drifting in, mainly from the two prairie provinces. If grain was moving the situation would be easier, but the great silence of the elevator still prevails. As a class the drifters are apparently genuinely hard up, and will work if employment happens to come their way. It is quite a common experience to be asked for the price of a meal.

Prince Rupert rose nobly to the call of the national fish week. The faithful people through diligent application showed to the unlightened, the practical wisdom of eating fish, not only on Friday, but on every other day of the week. Stores made special displays. Hotels and cafes played up special fish menus. King Halibut appeared in all his regal glory. Our old friend Black Cod waxed even more popular than ever. The succulent salmon was served up in a dozen different and enticing styles. Lesser members of the deep sea brotherhood—crab, shrimps, herring, sole, all played a useful part.

To what extent police administration in Prince Rupert will be a factor in the municipal elections in January is still a delightful uncertainty. It has however, been suggested that a plebiscite be taken to determine how the noble army of rate payers feel about it. Ald. Prudhomme, who wants to be mayor, says it should not be an issue. Why stir up anything like that? Let well enough alone says Ald. Prudhomme.

The Board of Trade, with an eye to business and also the exhibition association, and also for the benefit of the potency of dollars and cents, want a little more consideration shown native visitors. They feel that when the natives are here during exhibition week, the Dominion police authorities ought to be less rigorous. The milk in the

SMITHERS ATHLETIC ASSO.

Held Annual Meeting Good Outlook for Hockey League

The Athletic Association of Smithers held its annual meeting in the G. W. V. A. hall last Friday evening and there was a splendid attendance. It is beginning to look as if the boys will be on the job this year with enthusiasm. The prospects for a district hockey league are much brighter than for a number of years. Smithers will have two, if not three teams and there are prospects for a team from Telkwa and also from Hazelton. This would make some very interesting games and the expense of travelling would be considerably over travelling to Burns Lake, Vanderhoof and Prince George. The officers for the coming year were elected as follows:

President—Dr. R. C. Bamford.
Vice-Pres.—N. Kilpatrick.
Sec. Treas.—Cliff Warner.
Executive Committee—St. Strange, E. C. Dawson, Clarence Goodacre, Al Finnerty and J. Downey.

PRESENTATION TO SECRETARY

Felix Club show Appreciation of Officer's Faithful Service

On Wednesday afternoon last, the Felix Bridge Club of Hazelton were entertained at the home of Mrs. Winsby when the members of the club expressed their appreciation of the services of the secretary, Mrs. Jas. Turnbull who has acted in that capacity since the club was organized some four years ago, and she has been very faithful to her duties. Mrs. Winsby read an address to the secretary and Mrs. Chappell, on behalf of the club, presented the secretary with a silver flower basket with "From the Felix Club" engraved thereon. Mrs. Turnbull made a suitable reply of thanks which was enthusiastically received. Bridge was then played until the tea hour. The tea table was effectively arranged in blue and bronze with the napery to match. The prize for the afternoon was won by Mrs. Gow, while Mrs. Sharpe held the hidden number. The afternoon was a very pleasant one for the ladies.

RESERVING SCHOOL BOUNDRIES

The establishment of new schools in this district and the addition of more teachers to existing schools, means a new survey of school boundaries. There has been no change in the boundaries for many years and the New Hazelton school has been getting the worst of the deal all these years. It is expected a more equitable survey will result.

It seems to be that when an arrest is made the constable is given a half of the fines. This system, it is felt, is wrong in principle, with the result that the Indians feel disposed to stay away from Prince Rupert and its bright lights.

To date there are three majority candidates and the electors feel that each will be in the fight to the finish. These are ex-mayor Newton, Ald. Prudhomme and Ald. Orme. There is the usual speculation and street gossip, which does not amount to anything. Nothing that can be described as a campaign meeting has been held, and chances are there will be nothing doing until after the New Year. Then there will be a short and sharp fight, indications are that there will be no other opponents for the day.

Conservatives In Convention At Kamloops

During the past fifteen months Hon. S. F. Tolmie, premier of British Columbia and leader of the Conservative party in this province, has lost none of the affection his party followers had for him. When he went into the convention at Kamloops recently, he was given an ovation even greater than when he was chosen leader in the same building fifteen months ago. He made his speech to the party leaders from all parts of the province and he reported on all that had been done in the first year the party was in power at Victoria. He told about other matters which are still to be worked and of the hopes he had for the solution of those problems. His party is with him unanimously. His speech was characteristic of the man. There was no abuse of the opposition and nothing nasty was said about anyone who did not happen to hold the same views. Other members of the cabinet were there and gave reports from their particular departments. The convention was a success. The delegates were satisfied with the administration and so expressed themselves and the Premier and his followers have the full endorsement of the party to carry on.

QUICK NEWS

The Institute laid in a supply of powder recently in case farmers wanted to do some fall clearing. Some are availing themselves of the opportunity as it is a job that has to be done when the frost is out of the ground.

Harry Wearne and Markus Johnston are among the latest radio fans. It is predicted that there will others before long. If there is a place where radio is a necessity it is on the isolated ranches.

Last week on Wednesday night it rained and snowed and consequently the roads, at least in this particular section, were bad and kept many at home.

Recent high winds blew a lot of trees across the fences and trails. Diphtheria is reported down the line a short distance and some in the local district have been exposed to it.

It is with regret that Quick people learned of Dr. Hankinson's decision to move from Smithers to Prince Rupert. Highland and Shepherd loaded a car of goods last week. A good many others would like to do so, but there seems to be no market at present.

TOPLEY OLD TIMER GONE

Wright Devitt of Topley passed away in the Smithers hospital on the 18th of November after a long illness. The funeral was held on Friday with interment at Smithers. The deceased was in this district during construction days and was an old friend of the late Fred Peterson. About four years ago he suffered a stroke and has not been very well since.

This (Wednesday) evening some of the directors of the Silver City Athletic Club are expected to arrive for the purpose of looking over the grounds and deciding on a location for the stadium. The directors will be accompanied by the Silver City Athletic Club. It has been decided to build the stadium on the site of the old fair grounds, which is a very good location.

Maisie and Lower Mainland Claims
situate in the Omineca Mining Divi-
sion of Range 5—Coner District, Locat-
ed on Groutie Mountain.

TAKEN NOTICE THAT J. A. Ruther-
ford, F.M.C. No. 2731D, agent for the
owner, George Lussier,
Free Mineral Certificate No. 2731D,
intend sixty days from the date hereof
to apply to the Mining Recorder for a
Certificate of Improvements for the
purpose of obtaining a Crown Grant of
the above claims.

And further take notice that action
under Section 89 must be commenced
before the issuance of such Certificate
of Improvements.

Witness my hand and seal at Hazelton, B. C.,
this 21st day of October, A. D. 1929.

Father Cocola Got a Blessing From the Pope

On Sunday morning at 10:30 Rev.
Father Cocola, O. M. I., of Fraser
Lake, sang with a firm and strong
voice, High Mass in Annunciation Ro-
man Catholic Church, the occasion be-
ing the golden jubilee of his religious
profession. He was assisted by Rev.
elton, as deacon and by Rev. Father
Father E. Godfrey, O. M. I., of Haz-
Joseph Allard, O. M. I., of Fort St.
James, as sub-deacon. Rt. Rev. Bishop
op E. M. Ruzo, O. M. I., was at the
throne, assisted by Rev. Father O.
Wolfe, O. M. I., of Prince George, and
Rev. Father Emil Leray, O. M. I., of
Stewart. Rev. Father J. Hammond
O. M. I., of Prince Rupert was master
of ceremonies, assisted by Rev. Father
M. Chartier, O. M. I., of McBride, and
Rev. Father S. Ouellette, O. M. I., of
Smithers.

At the opening of the Mass, His
Lordship the Bishop, in a few well-
chosen words, congratulated the well-
deserving jubilarian and read to him a
telegram from Pope Pius XI bestow-
ing upon him the Apostolical Blessing
on such a great occasion.

After the gospel had been read
Very Rev. Father Grant, O. M. I., of
Vancouver, Provincial of Oblates de-
livered an eloquent sermon. He ex-
plained what a religious profession
meant and the reason why so many
were willing to leave the affairs and
the pleasures of the world, and
follow the Christ in order to give their
lives for the temporal and spiritual
welfare of their fellow men. Father
Cocola, he continued, during the fifty
years he had spent in British Columbia
had been most faithful to his Divine
Master and he had won the respect,
admiration, and love of countless
people who had the occasion to meet
and know him. Catholics and non-
Catholics, Indians or white people, all
had but one word to say of the hero
the days' feast. Father Cocola is
a real man of God and a real friend of
humanity. A congregation which fil-
led the church to the doors heard the
memorable sermon.

The choir, under the able leadership
of Charles P. Balagoo, rendered in
excellent manner "The Mass of Mor-
tel." Solos were sung by Miss Blanche
Curtin, Miss Jean Robertson and
Harry Astori.

Father Cocola is now seventy-six
years of age. He is a Corsican, a fel-
lowman of the great Napoleon. He
comes from a prominent French family
and is a physician, and architect, a
powerful orator, a great scholar and
linguist.—Prince Rupert News.

Telkwa Tales

Last Monday Mrs. McDonald had
the misfortune to fall at her back door
step and break her leg just above the
ankle. There had been a light snow
fall and it was due to the snow that
she slipped.

F. M. McNeill has been in Hazelton
and Kamloops attending Conservative
meetings.

Mr. McNeil arrived last Saturday
from Vancouver and is spending a
couple of weeks holiday at Sprague's
farm with his family and with Mr.
and Mrs. Sprague.

An operation was performed on the
foot of Mr. and Mrs. McDonald's little
boy and a piece of glass was removed.
The glass had been there for four
months.

The annual bazaar of the W. A. of
St. Stephens church was held last Sun-
day night and was a decided success.
There was a large attendance from all
parts of the district. Before the ba-
zar closed there was a concert in

TERRACE, B. C.

little snow during the winter. In extreme cases, such as some parts in the Prairie Provinces, the ground should be entirely covered with snow while, in others bending down the canes and holding the tips down with snow, will ensure their being covered with snow early.

Hybrid Tea Roses, Hybrid perpetuals and climbing roses should be protected in all but the mildest parts of Canada. Earthing up the base to a height of ten inches is a good method the tips being bent down and covered with soil. Another good plan is to put an inverted wooden trough over the roses and cover with strawy manure. Leaves are good for protection also. For climbing roses the inverted trough method, boxes filled with dry leaves or covering with heavy paper or earth all make good means for protection.

A light covering of strawy manure or leaves over the herbaceous border will help bring through things which would otherwise be killed. Narcissus are much tenderer than Tulips and need some protection under extreme conditions without any and adequate snow protection.

Memorial Service In Terrace for D. D. Munro

From our Terrace Correspondent.

News of the death of D. D. Munro which took place in St. Michael's hospital, Toronto, on Sunday, November 17th, was a shock to the entire district where he was so well and favorably known. It is just a few weeks since he left here for the east to visit a brother in Toronto and a brother and a sister in Cornwall, Ont. It was hoped that the change would be for the benefit of his health which has not been at all good for a year or more. The past summer he spent in Terrace on his farm and was active and energetic in improving the orchard and making alterations and improvements to the house on the farm. When he left he was wished a good trip and a return to health by a large number of friends who gathered at the depot and they little thought that it was a last farewell they were saying.

The late Duncan Munro was born in Stormont county, Ontario in 1870 and was there educated and had his being until 1897 when he moved west and settled in Grand Forks, B. C. where he engaged in the mercantile business until 1910. While in Grand Forks he was married to Alice Hay of Vancouver and she survives him.

In 1911 the deceased made a trip in

to Northern B. C. and spent some days in this district. Terrace made such an impression on him that he returned to Vancouver and interested some of his friends in land settlement here. On his return to the north he was accompanied by G. R. Gilbert who was not long in seeing the same vision that Munro had seen and in 1912 they both established their homes here.

The late D. D. Munro was one of the first directors of the Land Settlement Board being appointed in 1917 and after that appointment he made his headquarters at Telkwa and later at Smithers. He did a lot of work for the settlers of the interior in getting their produce recognized on the markets.

Duncan Munro was one of the best known men in Northern B. C. and all the interior join in extending sympathy to the bereaved. Mrs. Munro left Terrace three weeks ago to spend the winter with friends in Vancouver.

Three brothers, Daniel G. of Los Angeles, James S. of Toronto, and O. C. of Cornwall, Ont. and two sisters, Mrs. E. Balabanoff of Tacoma and Mrs. Wm. Blair of Stormont, Ont. are left in Terrace with the widow, D. D. Munro of Vancouver is a cousin.

The funeral service was conducted at the home of his brother in Cornwall at 1:30 on Tuesday, Nov. 19 and interment took place in Munro cemetery at Martintown, Ont.

A memorial service was conducted in Knox United church here last Sunday evening by Rev. H. Allen. There was a large gathering of friends present to pay their respects to the memory of a highly respected citizen.

Residents of all parts of Northern British Columbia throughout which district he was so well known, will learn with feeling of deep regret of the death in Toronto on Oct. 17, of D. D. Munro, a resident of this part of the Province for twenty years, during which time he was representative for the central interior of the Land Settlement Board.

Born about fifty-four years ago in Glengary County, Ontario the late Mr. Munro came west as a young man and spent the most of his life in British Columbia. Many years ago he conducted a store at Grand Forks in the Boundary Country and later was engaged in the land business in the Fraser Valley. It was from there that he came to this district before the railway was completed. He had farm land at Terrace on which he made his home, although he resided at Telkwa and later at Smithers where he carried on his duties for the Land Settlement Board. It was in this connection that he became best known as an efficient and popular official. He had been in

falling health for about a year and a few weeks ago went to Toronto, where his condition became worse until a few days ago word was received that he was in a precarious state.

Deceased is survived by a widow and a brother who is engaged in contracting in California, besides the brother at Toronto, D. D. Munro, well known Vancouver insurance man is a cousin.

BRITISH COLUMBIA FOX

Are in demand in European Countries For Breeding purposes

Kamloops, B. C. —One hundred and twenty-five pedigreed silver and black foxes valued at close to \$300,000 were shipped from here recently for Gothenburg, Sweden. This shipment constitutes the largest single consignment of foxes ever sent from British Columbia and the animals were the pick of the stock from J. W. Crompton's ranch at Quilchena, B. C.

Sweden has been one of the largest importers of Canadian-bred silver and black foxes, but in the past the animals have been secured largely in Prince Edward Island and other eastern ranches.

A specially equipped car was provided for the shipment of these animals which during the journey will be under the care of M. Solmin, one of the partners of the Swedish importing firm.

Mr. and Mrs. Keith and Miss Kerr who are spending the winter in Vancouver had a sudden call to Edmonton on Wednesday last when they received word of the death of their sister, Mrs. A. Y. Blain. Mrs. Blain was here a few years ago and made many friends who will regret to learn of her sudden passing. The sympathy of many friends are extended to the bereaved sisters.

NOTICE

Mining Company officials are asked to note the provisions of Section 18, Mineral Survey and Development Act, which are quoted herewith, and govern themselves accordingly.

(1) Where a corporation, other than a private company under the Companies Act, acquires an interest in, or title to, or engages in work on any mining property situated in a mineral survey district, it shall forthwith notify the Resident Engineer of that district, and the Provincial Mineralogist, and file with them full particulars thereof, and shall also file with them, as soon as it is issued, a copy of every prospectus or statement in lieu of prospectus which is required by the Companies Act to be filed with the Registrar of Companies.

(2) Where a corporation, other than a private company, under the Companies Act, issues, publishes or distributes, or causes to be issued, published or distributed, any pamphlet, bulletin, circular, advertisement, or publication relating to any mining property situated in the Province in which the corporation has any interest or on which the corporation is engaged in work, the corporation shall forthwith file a copy of the pamphlet, bulletin, circular, advertisement, or publication in the office of the Resident Engineer of the mineral survey district in which the mining property is situated, and shall also forthwith file three copies of the same in the office of the Department of Mines at Victoria.

(3) If a corporation makes default in complying with any requirement of this section, it shall be liable on summary conviction to a fine not exceeding twenty-five dollars for every day during which the default continues, and every director and every manager of the corporation who knowingly and wilfully authorizes or permits the default shall be liable to the like penalty.

For information regarding the Mineral Survey and Development Act, the provisions of which are set out in the above notice, apply to the Department of Mines, Victoria, B. C.

CANADA TO IMPORT BRITISH WEST INDIES FRUITS

St. John N. B. —We expect to ship from ten to fifteen thousand crates of Dominica oranges into the Maritime and Montreal markets next year, declared Captain A. D. Robertson of Dominica, B. W. I., who arrived at Saint John on the R. M. S. "Lady Nelson" from the West Indies.

Captain Robertson, who took up the cultivation of oranges and grapefruit at Dominica, as a hobby after the war, stated that there were excellent possibilities for the cultivation of citrus fruits on the island of Dominica, and he said that at the Manchester exhibition the Dominica oranges and grapefruit captured first place over the California product. Eighty percent of his product consists of Washington navel, all grafted on sour oranges stock. A unique feature of the Dominica citrus fruit industry was that on his estate he discovered several trees of Valencia, which had no seeds. He visualized great possibilities for the industry in Dominica, Captain Robertson stated, was due to the lack of adequate steamship services, but with the advent of the Canadian National Steamships, the industry was enabled to develop. He had associated with him in his enterprise, Mr. J. E. Knowl-

ton, who accompanied him on his trip. The climate of Dominica, Captain Robertson declared, was delightful, with an average temperature of 75 degrees. Captain Robertson was associated with the Gordons during the war serving on the Bulgarian and Western fronts.

PLANTS THAT NEED PROTECTION IN WINTER

Among fruits, the strawberry is one of which needs protection in winter in most parts of Canada. It is a shallow rooted plant, and it is liable to be heaved by frost and the roots killed. A light covering of straw, preferably marsh grass free of weed seeds, just before winter sets in is desirable to prevent this.

Grapes also need protection in the colder parts of Canada where grapes ripen. While vines may not be injured by winter buds start in growth early in the spring, the late spring frosts kill these, and so destroy the crop. By laying the vines down and covering with soil, this can be prevented as the soil need not be taken off till warm weather in spring.

Raspberries need protection also, especially in colder districts where snow either comes late or there is very

Miss Craig, superintendent of the nurses training school, Hazelton hospital, leaves on Thursday for a few days in Prince Rupert.

The regular meeting of the Falls Bridge Club was held at the home of Mrs. Wm. Gray on Tuesday evening when Mrs. Anderson won the first and Mrs. Sharpe the second prizes. Next week they will meet at the home of Mrs. Wm. Gray.

Dr. Burroughs of Smithers left Sunday last for Victoria to attend the sessions of the Farmers' Advisory Board. He will also have his eyes attended to by a specialist. The doctor does not expect to be back in Smithers until the 10th of December. Those requiring dental services will kindly take notice.

John McKenna of Smithers was up here the morning of last week but did not stay long.

Short Stories

Close to Home

Don't forget the Bazaar in Hazelton on Friday evening, December 6th. There will be stalls with articles suitable for gifts; home-cooking, Candy and Flowers, also all the usual and the special stunts to provide fun for everyone. Come and have a jolly time. 203

Mrs. F. A. Goddard has donated a Christmas cake to the Ladies Aid of New Hazelton in aid of the bazaar to be held on Friday evening next. The cake will be disposed of that night so that everyone will have an opportunity to secure it.

Donald Grey reports that he has a deal on with American capital for a group of claims in the Babine Lake district. He expects to have definite word this week and if the deal goes through there will be a bunch of natives who will not go hungry this winter.

F. M. Dockrill of Telkwa attended the Conservative caucus in Victoria last week and then went along to the Kamloops convention on the 23rd.

Douglas Lay, district mining engineer, left Sunday for Victoria for a few weeks on departmental business. He will also address the mining convention being held in Vancouver this week on the latest developments in the district over which he has jurisdiction.

John Nelson of Terrace, president of the Skeena District Conservative Association, attended the convention in Kamloops recently.

There was a fair sized crowd at the dance and novelty sketch in Hazelton last Friday night. It was under the auspices of the Hazelton Social Club.

The Skeena Tavern, Skeena Crossing, operated for several years by D. W. Pratt, is from this date closed to the public. Many travelling to and fro have found the Tavern a convenience at meal time and as the shades of evening drew down. The closing will be regretted.

Mrs. C. W. Dawson of Hazelton has gone to Oregon to visit her old home for the next few weeks.

Miss Ralphena A. Wrinch, who has been a student nurse in the Royal Victoria Hospital, Victoria, has completed her course and passed her final examinations with honors.

It is now less than a month until all the world will be celebrating Christmas. In about two or three weeks the young people will be packing up and setting out for their respective homes and whether they believe in a personal Santa Claus or not they never seem to get old enough to wonder what that mysterious person is going to bring to them this year. That is good.

Donald Grey, general merchant at Hazelton, carries a complete line of Groceries, boots, shoes, rubbers, hardware, dry goods, flour and feed. He wants to do business with you and requests you to visit his store. You will find his prices very reasonable. 24

J. J. Reesday, clerk in the provincial public works department at Smithers, has been transferred to Williams Lake to take effect immediately although it is likely that it will be the first of the month before he gets away. A man will be sent from Kamloops to carry on at Smithers.

R. L. Galt of Smithers went to Telkwa last Sunday to examine a mining property where he is interested. He was accompanied by an engineer. The property is about 1000 ft. high.

Health Service

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

INDIGESTION

Indigestion is a much abused term and has no definite meaning. It is a word in general use to describe any uncomfortable feeling which the sufferer attributes to the stomach or some other part of the digestive system. The true condition may be an ulcer of the stomach, inflammation of the gall-bladder, chronic constipation, chronic appendicitis, or some one or other of the many conditions which cause what is popularly known as indigestion.

Unfortunately because indigestion is a common complaint it is very often treated lightly and the general tendency is for the sufferer to dope himself with lavatives or to try one of the many types of diet which his well-meaning, but medically ignorant friends will offer as a cure. Soda is often taken in large amounts, regularly or frequently, by numbers of persons with the idea that their trouble lies in the presence of too much acid in their stomachs. If digestion is to take place in the stomach, acid must be present, and large doses of soda merely interfere with normal digestion.

In certain cases, bran and roughage in the diet are desirable in order to overcome constipation. If the digestive organs are irritable, it is most likely that a smooth, soft diet is what is desired.

These points are mentioned in order to make clear that the proper treatment of indigestion depends, first of all, upon finding out the cause. If this is not done, actual harm results, and the condition tends to become chronic and increasingly difficult to treat.

The whole trouble may be due to bad habits of eating. Eating too quickly, washing down food with fluid instead of chewing it properly, swallowing of air as a result of gulping of food. In such cases the trouble will be corrected by establishing proper eating habits. If there is inflammation or ulceration of some part of the digestive system, this of course requires suitable treatment, and constipation is dealt with by regulation of the diet and habits, not by drugs.

LAMB CONSUMPTION INCREASES

The consumption of lamb and mutton in Canada is evidently rapidly increasing. During the year ending with March, upwards of 40,000 more sheep and lambs were slaughtered in inspected packing houses than during the previous year. This statement which appears in the report of the Veterinary Director general for the past fiscal year is accompanied by the less favorable statement that there was a decrease in the numbers of cattle and hogs slaughtered at these abattoirs.

According to Dr. Robert Barnes, the chief of the meat and canned foods Division, the packers are making increased efforts to improve the quality of the product they turn out. These institutions looking to the development of the home market are making more and more of the finished and prepared meats ready for the table.

According to the Report which is published by the Department of Agriculture at Ottawa there were slaughtered at fifty inspected establishments during the years under review 1,085,825 cattle, 649,054 sheep and 2,433,074 hogs. Besides a few head of goats almost 200,000 head of poultry were also given inspection within the meat and canned foods division of the Health of Animals Branch.

On Tuesday evening of last week the Kittens Bridge Club was entertained by Miss Rock and Mrs. Cooper. Winch at the latter's home. The husbands and men friends of the members were also included. Mrs. Myros won the ladies first prize and Mrs. Hazelton took the consolation. Sam Wood took the men's first prize and Irving Bell won the consolation. This week the club will meet at Mrs. Seal's.

Here and There

(125)
"Say it with apples." Canadian Pacific Express Company slogan for the sending of gifts by Canadians to friends in Great Britain and Europe is being extended from Christmas and New Year presents to gifts sent at all times of the year. With the present bumper apple crop of Canada, the fruit can be bought at a reasonable price and its quality is of the highest. It sent overseas before the cost of navigation on the St. Lawrence coast will be considerably reduced.

Over 300 officers and men of the 4th Canadian Mounted Rifles first mounted regiment, formed in Toronto at the outbreak of the Great War, is holding its first reunion since the war at the Royal York Hotel, Toronto, November 28, next. The unit is proud of the fact that it still has in its ranks T. Holmes of Toronto, youngest Victoria Cross holder in Canada who captured an enemy machine gun nest singlehanded at Passchendaele.

An apple tree over a hundred years old, remarkable for its symmetry and having this year produced 22 barrels of California apples, is attracting much attention in the orchard of Downey Morton, Kelowna, B.C. Mr. Morton's apples from the same tree in years ago and it was then a fully grown tree. He believes it to be real and the result of many.
